SUBJECT INDEX

Alkenes
Recent fundamental studies on migratory insertion into metal-carbon bonds 209

Allyl complex of Pd(II)
Structure and dynamics of chiral allyl complexes of Pd(II): NMR spectroscopy and enantioselective allylic alkylation 35

Arene
The synthesis of ruthenium and osmium carbonyl clusters with unsaturated organic rings 69

Bismuth derivatives
Bismuth derivatives for the oxidation of organic compounds 127

Carbonyl
The synthesis of ruthenium and osmium carbonyl clusters with unsaturated organic rings 69

Catalysis
Catalytic applications of rhodium complexes containing trialkylphosphines 163

Ceramic
Intramolecular coordination in Group 3 and lanthanide chemistry. An overview 87

Cluster
The synthesis of ruthenium and osmium carbonyl clusters with unsaturated organic rings 69

CO
Recent fundamental studies on migratory insertion into metal–carbon bonds 209

d^8 metal complexes
Recent fundamental studies on migratory insertion into metal-carbon bonds 209

Enantioselective allylic alkylation
Structure and dynamics of chiral allyl complexes of Pd(II): NMR spectroscopy and enantioselective allylic alkylation 35

Fullerene halides
Stereochemical patterns formed by addition to fullerene C_{60} 1

Fullerene hydrides
Stereochemical patterns formed by addition to fullerene C_{60} 1

Group 3
Intramolecular coordination in Group 3 and lanthanide chemistry. An overview 87

Intermediates and mechanism
Recent fundamental studies on migratory insertion into metal–carbon bonds 209
Intramolecular coordination
Intramolecular coordination in Group 3 and lanthanide chemistry. An overview 87

Lanthanides
Intramolecular coordination in Group 3 and lanthanide chemistry. An overview 87
Lewis-acidic metal complex
Intramolecular coordination in Group 3 and lanthanide chemistry. An overview 87
Ligand influences
Recent fundamental studies on migratory insertion into metal–carbon bonds 209

Migratory insertion
Recent fundamental studies on migratory insertion into metal-carbon bonds 209
Molecular structure
Stereochemical patterns formed by addition to fullerene C_{60} 1

Organic compounds
Bismuth derivatives for the oxidation of organic compounds 127
Osmium
The synthesis of ruthenium and osmium carbonyl clusters with unsaturated organic rings 69

Rhodium
Catalytic applications of rhodium complexes containing trialkylphosphines 163
Ruthenium
The synthesis of ruthenium and osmium carbonyl clusters with unsaturated organic rings 69

Stereochemical patterns
Stereochemical patterns formed by addition to fullerene C_{60} 1

Trialkylphosphine
Catalytic applications of rhodium complexes containing trialkylphosphines 163
